- Minimal disruption to other trades
- Minimal disruption to public spaces

## INDUSTRIAL LASER CLEANING SERVICES

Our whole-of-life approach is what sets Vero Laser apart. We offer testing, inspection, and repair services, including innovative, cost-effective, and safe industrial laser cleaning.

Laser cleaning is in particular fit for heat exchanger plates due to the complex shapes and sizes of the various applications of heat exchangers.

Laser cleaning is the safer, easier, better choice for heat exchangers.

### VERO LASER PROVIDES A RANGE OF TECHNICAL AND PROJECT SERVICES TO:

- DEFENCE
- MINING
- INFRASTRUCTURE
- ASSET MAINTENANCE
- OIL AND GAS
- CONSTRUCTION
- MANUFACTURING
- RAIL
- PIPELINES
- HERITAGE RESTORATION

# COMPANY OVERVIEW

A subsidiary of a disruptive technology entity, Vero Laser delivers quantifiable value through property and infrastructure services across Australia.

Vero Laser is lead by Ben Gunness, a recognised industry leader who has over 18 years experience working with government, multinationals, and major Australian contracting firms.

Vero Laser is, as are progressive industries, taking advantage of the industrial laser cleaning benefits. Those include advancements in fibre optics, lower cost and higher performing lasers, a greater emphasis on environmental sustainability and health benefits of the process.
